

THE GAZETTE.

MONDAY EVENING, AUGUST 29.

THE OBELISK OF LUXOR, which stands in La Place Concorde, Paris, has become bleached and full of small cracks during the forty years it has been in France, while forty centuries in Egypt had not perceptibly altered it. Climate affects the very hardest building stone, as well as organic creatures. Dampness promotes the growth of plants, which we look upon as insignificant; such as mosses, lichens and fungi. So far from being insignificant, these lower orders of the vegetable kingdom have the function of applying themselves directly to the rocks to crumble them down into soil. Lichens, for example, secrete oxalic acid, and thus corrode the rocks over which they spread themselves. There is a microscopically minute fungus, which, in moist places, flourishes in granite, and gradually promotes its disintegration.

Salm-Salm, whom the soldiers irreverently used to call Slam-bang, has gone at last. He was a major in the fourth regiment of Dragoons of the Royal Prussian Guard, and was killed in a recent battle, while charging at the head of his cavalry.

To the editor of the Alexandria Gazette.—Please announce me as a candidate for Congress at our November election; subject to the judgment of a Conservative Convention. The necessity of holding such a convention is palpable to all, and the claims of all candidates should be cheerfully submitted to that arbitration.

A. J. MARSHALL.
Warrenton, Aug 8—t

Col. Geo. W. BAKER, whose qualifications and abilities are well known, and appreciated, will be proposed to the Conservative Convention which will be held next fall, composed of delegates from the Conservatives in the counties which may compose the district of which Alexandria will form a part, as a candidate for Congress.

Col. Geo. W. BAKER, whose qualifications and abilities are well known, and appreciated, will be proposed to the Conservative Convention which will be held next fall, composed of delegates from the Conservatives in the counties which may compose the district of which Alexandria will form a part, as a candidate for Congress.

To the Voters of the Seventh Congressional District of Virginia.—We are requested to announce that, in obedience to the solicitation of many friends in several of the counties comprising the Seventh Congressional District, Judge HENRY V. THOMAS will be a candidate to represent the Seventh Congressional District of Virginia in the next Congress. It is needless to say anything of his qualifications for the position, in our community where he is so well known, but to the voters of other portions of the field we can cordially endorse him as entitled to their confidence and support, both on account of his integrity as a man as well as for his abilities to discharge the duties pertaining to that station.

possessing Ammonia enough to make the growing crop, and permanent fertilizing qualities in abundance to enrich the soil.

Bone has been so tampered with by unscrupulous manipulators that consumers have justly become suspicious of it.

To satisfy such, I append the result of an analysis of this article by the eminent and well-known Chemist, Dr. G. A. Liebig, together with his remarks in regard to it.

Moisture..... 7.51
Organic Nitrogenous Matter..... 17.82
Bone Phosphate of Lime..... 58.20

He says: "This is a superior article of Flour of Bone; pure, unadulterated and free from all worthless impurities. One hundred pounds of it contains nearly as much of Phosphates as 150 lbs of the common article of Raw Bone."

"Through the peculiar process to which it has been subjected, it has been rendered highly friable and soft, and will thus be readily assimilated in the soil."

"EXCELSIOR."

Super-Phosphate, equivalent to Bone
Phosphate of Lime..... 57 per cent
Potash and Soda..... 6 per cent

EXCELSIOR is composed of 700 pounds of No. 1 Peruvian Guano, and 1300 pounds of Soluble Phosphate of Lime (bones dissolved in sulphuric acid), potash and soda, forming the best concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing properties of Ground Bones—supplying an abundance of Ammonia for any crop, and all soils, and in a perfectly fixed condition—not volatile and passing off with the first crop, as with Peruvian and other ammoniacal guanos, but stimulating the crop to which it is applied, and all succeeding ones, giving to poor, worn out and unproductive soils new life and vigor, making them, in this respect, equal to the most highly cultivated lands, upon which much time and money have been expended.

EXCELSIOR was introduced in 1858, and we challenge the manufacturers and vendors of fertilizers, natural or artificial Guano, to show results so invariably successful as can be shown from its use. One of the PROPRIETORS SUPERINTENDENTS IN PERSON EVERY MINUTE OF ITS MANUFACTURE, and therefore warrant every bag uniform, and to contain by analysis the standard of fertilizing properties, giving that protection to the farmer which does not have in the purchase of any other Guano or Fertilizer sold.

Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of the most prominent and calculating farmers, after TWELVE years' experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to 200 to 300 pounds of any other Fertilizer or Guano offered for sale, and therefore is fully 100 to 200 per cent cheaper.

The very best evidence we can offer of the value of Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited. Some unprincipled manufacturers have actually used the trade mark for the purpose of palming off their worthless compound.

The ANALYSIS and name of "J. J. TURNER & CO." in Red Letters, are branded on every bag. All others are counterfeits.
Price \$65 per ton.

IMPORTANT TO FARMERS.
I am now prepared to furnish to farmers and others, in any quantity, from a bag up, the celebrated

MAGNUM BOMUM
SOLUBLE PHOSPHATE.
This Fertilizer is composed of Pure Bone, rendered soluble by Sulphuric Acid, five per cent of Ammonia and five per cent of Potash. It contains no mineral Phosphate of Lime, and is therefore twenty per cent lighter than Fertilizers prepared from that article, whilst the per cent of Soluble Phosphate of Lime is greater and more susceptible of a perfect integration with the soil. I have received the most satisfactory accounts from the use of this Fertilizer, and can therefore recommend it as a first class manure. Price \$55 per 2000 lbs.

THOS. PERRY,
aug 23-1m Agent for Alexandria.

BAUGH'S IMPROVED RAW BONE PHOSPHATE OF LIME.
I have now on hand a supply of this old established favorite, which has been thoroughly tested for the past fifteen years. It has been much improved by the addition of Ammonia, rendering its action much quicker than before. It is based on Pure Raw Bone, and warranted not to contain any heavy mineral matter, thus saving to the farmer about one-fifth in the way of weight to say nothing of the superiority of the Bone Phosphate of Lime, obtained from Pure Bones, over the many mineral Phosphates used in the manufacture of Fertilizers. Price \$54.

THOS. PERRY,
aug 23-1m Agent for Alexandria.

ZELL'S AMMONIATED BONE SUPER PHOSPHATE.

The best and most popular Fertilizer in use. Quick and active as Peruvian Guano, and permanently improves the soil.

It stands the drought better than any other Fertilizer, which is very important to the farmer.

It is manufactured of Bones, Animal Matter and a rich Phosphate Guano, containing over sixty per cent of Bone Phosphate of Lime, treated with Sulphuric Acid, and 10 to 15 per cent Bone Phosphate of Lime rendered soluble at the same time rendered quick in its action by the addition of over 2 per cent of Ammonia.

This superior Phosphate has now been tested for over five years, on all kinds of crops, by the side of all known Fertilizers, and has given the best and has given the general satisfaction that could be desired.

For this valuable Fertilizer we only ask a trial side by side with any Fertilizer in the market to attest its superiority.

Every farmer should give it a trial, as the cost will be more than repaid the first year, and its beneficial effects lasting.

For Corn, Oats, Wheat, Rye or Grass, it has no superior.

Zell's Phosphate is fine and dry for drilling, and is put up in bags or barrels.
Price \$60 per ton of 2000 lbs.
Send for a circular, and read the certificates of some of the best farmers in Virginia who attest its superiority over all other Fertilizers.

SOLUBLE PACIFIC GUANO.
Improved in
QUALITY AND CONDITION.
The quality of this Guano is materially improved this season by the addition to its composition of a large per cent of

SALTS OF POTASH.
It is improved in condition by being brought into market sufficiently dry and uniformly fine to pass with facility and regularity through the orifices of the

WHEAT DRILL.
More than \$1,000,000 is involved in the production of this Guano, and the trade in it has steadily increased, until now it far exceeds that of any other fertilizer.

The Pacific Guano Company has a far greater interest in the maintenance of the quality of its Guano than any number of consumers can have; hence no apprehension need exist as to its continued excellence.

AUCTION SALES.

PUBLIC SALE.—By virtue of a decree of the Circuit Court of Prince William county, pronounced on the 11th day of October, 1869, in the suit of J. M. Miner, the undersigned, who was appointed a special Commissioner for that purpose, will, on MONDAY, the 1st day of August, 1870, that being Court day, at the front door of the Court House of said county, sell, by public auction, TWO CHAIRS, one of which is of the following description: one containing 705 acres, 1 road and 282 LINO. The other contains 60 acres, 2 roads and 27 poles.

These tracts of land are situated in Prince William county, on the telegraph road from Dumfries to Fredericksburg, about two miles from the former place.

They are well timbered and watered, and are considered very good lands, and are within two miles of navigable water.

TERMS—One-third of the purchase money to be in cash on the day of sale, and the residue in three equal instalments of six, twelve and eighteen months; the deferred payments to bear interest from the day of sale, and to be secured by bonds, with approved personal security; the title to be retained and the land subject to a resale, under order of the Court, and ten per cent of the purchase money forfeited in case the terms are not complied with.

EPPA HUNTON, Comm'r.
Prince William Co., July 1—eots

By virtue of a decree of the County Court of Prince William county, pronounced on the 8th day of March, 1860, in the suit of Long vs. Speake, the undersigned appointed special Commissioner for that purpose, will, on the 5th day of SEPTEMBER, 1870, (that being Court day, at the front-door of the Court-house, in Brentsville, offer for sale a lot of Land, near Dumfries, containing 60 acres and 18 poles, being the same land owned by Wm. Long, dec'd, and conveyed in trust to T. H. Speake.

TERMS OF SALE—One-tenth of purchase money to be paid in cash on day of sale, the residue in three equal instalments at 6, 12, and 18 months, to bear interest from day of sale, and to be secured by bond and good personal security, the title to be withheld and subject to resale in case purchaser fails to complete the purchase.
